STOP

Here we have a picture Martin took at an overpass mere blocks from his residence, at the McKean & Front Street intersection. The overpass is right behind the place this screenshot was taken from.

Martin's second persona on Telegram, known as Horatio Larsen, the disgusting O9A pedophile. Martin, after failing an attempt to date an Iranian/Mediterranean mutt, coped by getting drunk and ranting in a group chat. In the referenced screenshot, we can see that the girl he is hitting on specifically mentions how she thinks his doxing behavior is creepy.

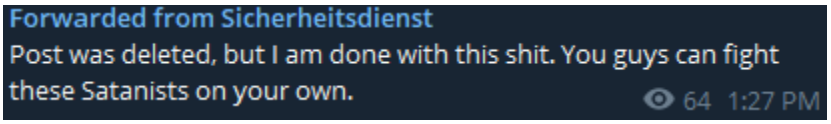
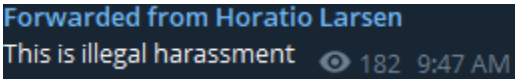
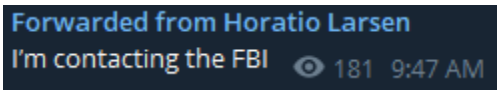
Notice the post timing here.







After claiming everyone else as "O9A Satanist Feds", after doxxing minors, and all this time receiving the full support of CI Telegram, Martin was finally exposed as the very thing he was supposedly against. This incident further underlines the disease in our ranks known as "Christian Identity" who will knowingly collaborate with O9A members and federal informants out of their hatred for Pagans. All involved in this project are traitors and should be treated as such.

Zero Tolerance!
